treatment, in your lunch hour, it. closs take around three months. to see the full results, so out sculpting in Jamiary to enjoy. smoother contours by spring."

February: Get Fuzz Free

If you don't want to be betheed. by your bikin line or anderarm had on the beach this summer. IPC offers a more permanent solution to hav removal, "Laser hair removal is the best, most effective way to permanantly rentous unwanted hair," advises aesthebs nurse Harman Findle. "However, Pt. usually takes around six monthly sessions to see results." So it's best to get cracking in the winter to ensure you're stubble-fee for the beach.

March: Boost your Cleavage:

#### April: Slim those Saddlehags

if you're tricking of having

burging assistance to shed same excess lat for summer, now is a good time to have a Toosuction procedure. While treatment may only throlle a day in hospital, it can take up to six weeks to fully recover, so you need to factor in some downtime. before you'll be beach-ready. Afternatively, Thermage is a non-invasive body tightening Insalment that 18th burns, tones turns and sims thighs. Harnalt Findle of 111 Harley Street says. "Only one session of this intensive radiol/equency. treatment is needed but results. gradually improve over a sixmonth period, so best to book your appointment in the spring."

May: Tanning Treatments

#### July: Permanent Make-Up

All summer usually means: a week or two spent getting. sweaty on the beach and melling on public transport, the chances are your usual make-Let products won't withstand the

As such, the summer is the perfect time toy a semipermanent make-us heatment. Semi-permanent miske-usi, alto known as micropigmentation, is a turm-of temporary cosmistic fattooing used for long-lasting. enhancement of the eyebnows, eyelids, tos and cheein.

If that all sounds a little too permanent, opt for a simple

# Subtle Enhancements

Hannah Flindle RN is a fully qualified NHS trained Registered Nurse. She made the transition into aesthetic medicine six years ago and has worked with some of the world's top cosmetic and reconstructive surgeons.

Currently she works closely with the lead surgeon Mr Yannis Alexandrides at the prestigious 111 Harley Street Clinic, specialising in non-surgical treatments such as anti-wrinkle injections, dermal fillers, Sculptra, Thermage RF skin tightening and Fraxel laser skin resurfacing, amongst others.

Her specialist techniques focus on creating natural, subtle enhancements. Hannah's approach is open and gentle with a good eye for aesthetic balance and enhancement.

61 strive to give my clients exceptional care. Whether it's antiageing or scar refinement, my ambition is to achieve a result that is natural, soft and still very 'you'
